## "Is God's Good Blessing"

"I feel that God has blessed Dr. Acker with special knowledge to prepare that grand medicine called Acker's English Remedy for Throat and Lung Troubles. It saves children every time when they are attacked by croup

Every mother should know about it, and I will tell about my experience. I had a darling boy of four years to die with croup. My dector did all he could, but the child could not be made to vemit. That was before I know of Acker's English Remedy. After I did hear of it, I got a bottle. When our little eighteen - months - old girl was stricken with croup, I gave her this medicine, and inside of twenty minutes she vomited and was better right away. During the winter she had croup four times, and it brought her through each time all right. I, myself, had bronchitis pretty bad, and Acker's English Remedy cured me completely, Before I close, I want to tell you

of my neighbor's boy, named Jobe Nana. He had bronchitis, too, He got worse all the time. My husband went over to his house and told him about my Then his mother went to town, got a 50-cent bottle of Acker's English Remedy, and he took it. He came over to our house a few days later and said he was all right, and also said two doses relieved him from the start. You can understand by my letter why I think so much of Acker's English Remedy. 1 repeut that God's blessing must sur ly have been bestowed upon Dr. Acker.' (Signed) Mas. JOHN YEAGER, Rochester, Pa.

The first alfalfa of the southern Rio Grands val-ley is a short cut, but the coming secnd crop is much more promising. The flood waters of the river have finally reached the M-villa valley, the ditches are full, and the parched fields are fast recovering. The farmers of the valley tre now vigorously prosecuting their corn planting, which had been long delayed by the lack of water. In central and northern sections surden plants have all been set out, and are thriving under very good conditions. Vineyards are reported to be in excellent condition; in Bernalillo county the bunches are already well tormed. Strawberries are ripening in central countles, and cherries are turning. The lambing season is about over, and all reports indiate that it was the most successful in rears. Stock continues in excellent conthem just the plumpness all there is now a sufficiency of irrigation dirion. In all sections of the territory water.
